IDENTITY / TEMPLATES

Client:
Pembina and Yellowhead Region
Educational Consortia

PEC and YREC facilitate programs and services provided by five colleges and universities to adults living in nine regions not served by single institutions.

This project included the design of an overall, unifying look for all print materials of the consortia. Templates were created for 6-panel course calendars, two-page handouts, and a variety of admats for regional newspapers, allowing for consortia staff to easily adapt the pieces as required.
